

COMMUNICATION
WITH THE SPIRIT WORLD OF GOD
(432 PAGES)

To which of us would the assurance that death on this earth is not an end, but a beginning of a better life, be unwelcome? Johannes Greber's immortal book has brought understanding to the minds and contentment to the hearts of thousands of Truth Seekers, throughout the world.

Johannes Greber was surely an Apostle of Truth. It is the purpose of his book, written in a spirit of love for his fellow man, to describe the path which brought him into contact with the world of God's Spirits and laid the Truth open to him.

From the earliest pages where he describes his reactions as a Catholic Priest 25 years ordained, to his first contact with God's Spirits . . . his gradual change from indignation that a seance could occur in his own country parish . . . through experiences that stirred him to the bottom of his soul . . . you will find, "Communication With The Spirit World of God," absorbing reading.

When Pastor Greber first contacted God's Spirit World he felt compelled to continue. In his search for enlightenment he always advanced cautiously keeping in mind the words of St. Paul: "Prove all things; hold fast that which is good" (1st Thessalonians 5:21).

Pastor Johannes Greber also translated the New Testament.

The task was not simple. Many contradictions between what appears in the ancient scrolls and the New Testament, as we have grown to know it, arose and were the subject of his constant prayers for guidance—prayers that were answered, and the discrepancies clarified to him, by God's Spirit World.

At times he was given the correct answers in large illuminated letters and words passing before his eyes. Other times he was given the correct answers during prayer meetings. His wife, a medium of God's Spiritworld was often instrumental in conveying the correct answer from God's Messengers to Pastor Greber.

The author recognized the crying need for a translation dressed in present day language, and not as it was spoken centuries ago. According to his own statement, he considered it a sin against the Truth to hand people of our day translations of the Bible which date from earlier centuries and appear to the modern reader peculiar and hard to comprehend which therefore does not absorb his mind, but only tires him.

The results of Johannes Greber efforts is a translation in plain, yet beautiful language, so natural and clear a child would have no trouble in understanding it. It is a work freed of all man made doctrines and disbeliefs, revealing to the reader a new world of simple beauty and true understanding of God's Will. We would like to share this with you . . . and with all the world!
